

Delivering Your Advertising Message to the Nicest Doorsteps in the Nation.

The Resident is a monthly, direct-mailed, niche-market community newspaper specializing in hyperlocal content. With two editions in print, each paper focuses on historic, riverfront communities primarily targeting affluent homeowners in Jacksonville. One product focuses on Riverside, Avondale, Ortega, and Murray Hill, while the other product covers the San Marco, San Jose and St. Nicholas areas. The paper is produced on 11x17 newsprint and distributed in high visibility areas throughout their targeted niche markets in Jacksonville and boasts a 60,000 + readership.

1/16 - Vertical	2.395" x 3.875"	2.145" x 3.625"	No Bleed

CREATING SPECIALTY AD SIZES

When combining two ad sizes to form a specialty size, remember to account for the space usually present between the two individual ads. Add an extra 0.1667" to the dimension (height or width) along which the ads are being merged.

Example: If you're merging a 1/4H and a 1/8H ad—typically stacked vertically—the extra space is added to the height. Calculation: 3.875" (1/4H) + 1.85" (1/8H) + 0.1667" (space) = 5.8917" total height. Combined Ad Dimensions: 10" wide x 5.8917" high.

Circles

Ad Space	Trim Size	Live Area	Bleed Area

PRINT SPECIFICATIONS

RESOLUTION

- Ensure all images and artwork in your ad design have a resolution of 300 dpi.
- Images should be set at 100% of their intended size in the ad design.

COLOR FORMAT

- Use CMYK color mode (specifically U.S. Webcoated SWOP V.2).
- Strictly no PANTONE or LAB colors; only CMYK accepted.

ACCEPTED FILE FORMATS

1. Adobe Acrobat PDF

- Optimized for press
- 300 dpi resolution and CMYK color mode
- All fonts embedded
- Compatible with Acrobat 5

2. TIFF or JPG

- 300 dpi resolution (at actual print size)
- Max quality, flattened, and in CMYK color mode

AD BORDER/RULE REQUIREMENT

- Ads should ideally be distinguishable from editorial content, either by having a minimum 0.5-point rule around all edges or by featuring clear, solid borders. If an ad does not meet this requirement, a 0.5-point rule will be added by our production team.

FONTS

- For PDFs: Embed all fonts. If this isn't possible, convert text to outlines.
- Alternatively, rasterize the ad by sending as a flattened JPG or TIFF.

TRANSPARENCY

- Flatten all transparency effects, including drop shadows and transparent blending. This can be done in Adobe Acrobat.
- No flattening is needed for JPG or TIFF without layers.

PRINTER MARKS

- Do not include any printer marks (bleed, crop marks, color bars, etc.) in PDFs. We add our marks during the printing process.

SOFTWARE RECOMMENDATIONS

- Using professional design software (e.g., InDesign, Illustrator, Photoshop) is highly advised.
- Avoid word processors like Microsoft Word or PowerPoint as they lack essential design tools and may complicate the process.

NEED ASSISTANCE?

- For queries or assistance with file preparation, contact The Resident.

PRINTING TIPS (RESIDENT COMMUNITY NEWS)

- The Resident Community News is printed on recycled newsprint. This can cause colors to print 10-15% darker and less vibrant than on-screen display. Expect a 20-30% dot-gain on newsprint, leading to potential fuzziness compared to glossy prints.

PRINT DESIGN CLARITY GUIDELINES:

- Resolution:** Always use the highest resolution image available.
- Font Size:** Avoid font sizes below 6.5pt to ensure readability.
- Image Quality:** Sharpen images and boost contrast for clearer reproduction.
- Clear Space:** Maintain ample margins around vital content to prevent unwanted cropping or border proximity.
- Layout Simplicity:** Opt for straightforward layouts to prevent a cluttered appearance.
- Font Choice:** Prioritize legible typefaces for the main content. Use decorative fonts sparingly, suitable for headings or special callouts.
- Contrast:** Ensure there's a clear contrast between the background and text, preferably dark text on a light background.
- Anticipate Ink Spread:** Given the nature of some print mediums, especially newsprint, be cautious about ink spread. Keep design elements spaced sufficiently to prevent unwanted merging.
